Assistant Head teachers: Miss J Taylor and Mrs H Morris

25th May 2022

Dear homes,

In Year 4 our summer term topic is the Rainforest and to help bring the topic alive we are delighted to bring the Telford Exotic Zoo to school on Friday 24th June.

During the visit children will have the opportunity to meet and ask questions about animals they may have never seen before. They will be given more information about these amazing animals and their habitats.

Over the summer term, the children are focusing on 'Living things and their habitats' within their Science topics. Children have been learning how to classify both vertebrates and invertebrates, whilst discussing how each animal feature benefits them within their own habitat.

This visit will support their scientific learning and allow them to see the purpose of science first-hand.

We are asking for a contribution towards the cost of the visit of £1. We are very grateful to the Friends of Oakmeadow who have contributed to trips and visits across the school and are looking forward to using their contribution towards this fantastic visit.

Please let your child's class teacher know if there are any allergies we may need to be aware of before the visit takes place.

Yours sincerely,

Miss Milly Davies
Year 4 Teacher and Science Lead
